

Annual Report to Parents and Carers about Special Educational Needs and/or Disabilities 2016-2017

Schools have a duty to report annually to all parents and carers on the provision for Special Educational Needs and/or Disabilities (SEND).

The Special Educational Needs and Disability Code of Practice: 0 to 25 years provides statutory guidance for organisations which work with and support children and young people who have Special Educational Needs and/or Disabilities

Under this code a child or young person has Special Educational Needs and Disability (SEND) if they have a learning difficulty or disability which calls for special educational provision to be made for him or her. A child of compulsory school age or a young person has a learning difficulty or disability if he or she:

- has a significantly greater difficulty in learning than the majority of others of the same age, or
- has a disability which prevents or hinders him or her from making use of facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions

For children aged two or more, special educational provision is educational or training provision that is additional to, or different from, that made generally for other children or young people of the same age by mainstream schools.

The Special Educational Needs Code of Practice lies at the heart of the school's SEND Policy and sets out the processes and procedures that all organisations should follow to meet the needs of children. It divides SEND in to four areas however children can have needs in any number of these areas:

- Cognition and learning
- Communication and Interaction
- Social, emotional and mental health
- Sensory and/or physical

The support that is available for children with SEND is outlined in the schools Local Offer, which can be found on gorseybank.net under the 'Curriculum; SEND' tab. This policy provides comprehensive and accessible information about the support available to children and young people with SEND at Gorseley Bank.

Provision for children with SEND is based upon the school responding to each child's individual needs. All levels of provision follow an ongoing cycle of **'Assess, Plan, Do and Review'** in order to consider whether the provision is having the intended impact against the desirable outcomes for the individual child.

The SEND Code of Practice outlines a graduated approach to SEND in securing what is 'additional to' and 'different from' that which is available for all pupils and doing this as

part of the cycle of planning, teaching and assessing for all pupils. When a child is experiencing difficulties in making expected progress, we will provide additional support to enhance quality teaching.

Home School Partnership

If you are concerned that your child may have a Special Educational Need then please make an appointment to meet with your Class Teacher in the first instance. We fully appreciate that you know your child best and we will listen to your concern and then agree a way forward together. If your child's Class Teacher has concerns they will contact you to discuss the matter and to put together strategies to support your child. This may involve taking advice from the school Special Educational Needs Co-ordinator (SENDCo) and you will be kept informed and consulted at all stages of this process together with your child, if appropriate.

Support and Monitoring available in school

At Gorseley Bank pupils with identified Special Educational Needs are identified and supported in a range of ways:

- **Ones to Watch**

This category allows the school to identify children who teachers and/or parents have concerns about in any of the four areas of the Code of Practice. Once identified the progress of these children is monitored more closely so we can respond to their needs quickly and reduce the risk of them becoming a child with SEN.

- **SEN Support**

This applies to those children who receive the lowest level of support to close gaps in learning or provide a boost to allow them to catch up with the majority of their peers. Class Teachers will complete a 'Response to SEN' in the area of concern to ensure inclusive QFT (Quality First Teaching) is taking place. Recommendations made by the SENDCo ensure the curriculum is appropriately adapted and learning environment is suitable. Consideration is then given for the need for targeted intervention. The support/intervention may be for a short period of time during the course of the year, but is in addition to that of their peers.

- **School Focus Plans (SFPs)**

These are used in a process of 'Assess, Plan, Do and Review' to target additional support that will help a child make expected progress. Specialist advice may be sought to provide strategies to support learning. Typically children who receive between 3 and 12 hours a week will have their progress tracked on an SFP.

- **Education Health Care Plans (EHCPs)**

EHCPs support children who require the highest level of support, which typically means over 12 hours per week. The plan seeks advice of specialists such as educational psychologists, health care professionals and speech and language experts. It outlines annual outcomes for the child based around the four areas of need outlined by the Code of Practice.

Policy

The SEND Policy is reviewed by the Governing Body every 3 years. It was last reviewed in the Summer Term of 2017. It is available on the school's website.

SENDCo

The School SENDCo is Aimee Turrell, who reports to the Senior Leadership Team.

SEND Link Governor

The SEND Link Governor is Chris Stubbs.

Number of pupils with SEND at Gorseley Bank

Category	2014/2015	2015/16	2016/2017
Statements/Education Health Care Plan	3	4	4
School Focus Plan	3	5	13
SEN Support (Named interventions)	84	96	92
Ones to Watch (incl. SEN support)	Category not introduced yet	105	81
Total	91	114	98

Annual Review

The children who have an EHCP and SFP all contribute to their annual review, through answering a series of questions which are documented alongside the views of their parents and teachers. Children are invited to attend the review meetings.

Progress of pupils with SEND

The progress of pupils with SEND is reviewed on an individual basis during termly Pupil Progress Review Meetings and at School Focus Plan Reviews which are typically held every 10 weeks. PIVOTs are used to measure the progress of pupils whose progress cannot be measured meaningfully in relation to the National Curriculum interim frameworks.

There have been no exclusions of SEND pupils.

Deployment of staff and resources

We are continually reviewing how we deploy our Teaching Assistants and how best to use this most valuable asset. They provide different types of support depending on each child's individual needs ranging from individual/group support in class to bespoke interventions and social skills support. Our Pastoral Manager works closely with the SENDCo to provide support for children with pastoral and social, emotional and mental health needs. A specialist ECaR teacher delivers a successful and intensive reading recovery programme for children who meet specific criteria. Our specialist SEN teacher delivers bespoke sessions for individual children and small groups.

Other children are supported in small groups and sometimes 1:1 by Special Educational Needs Teaching Assistants (SENTAs) and mainstream Teaching Assistants. They also benefit from a range of interventions that are available in school including Boosting Reading at Primary, maths interventions, Memory Training, Nessy Learning Programme, Inference Training, and Reception Literacy Programme. These interventions are delivered by specifically trained members of teaching staff.

External Agencies

Gorseley Bank has developed good relationships with several external agencies through the Wilmslow Education Partnership (WEP). We work as part of a Wilmslow SENDCo cluster group and the Cheshire East Autism Team (CEAT) (supporting children with social and other related communication difficulties) consultation group. We also regularly liaise with Speech and Language Therapy, Child and Adolescent Mental Health Service (CAMHS) (and their cluster group), Occupational Therapy, school nurses and GPs.

Transfer to Secondary School

We liaise very closely with Wilmslow High School to ensure a smooth transition for all our Year 6 children. We recognise that children with SEND can need additional support in transition to a new school setting and work hard to ensure that the children are ready for the change. This involves additional visits, extra meetings with new teachers and teaching assistants where appropriate. In addition our SENDCo meets with the SENDCo at Wilmslow High School to pass on vital information about our SEN children and other vulnerable pupils. In school transition, we are taking part in the Cheshire-wide 'Mental Health and Wellbeing' initiative in order to enhance the support available to our more vulnerable pupils.

Staff Development

We encourage all staff to continue their professional development throughout their career with us. The SENDCo attends relevant training and in turn delivers any relevant/ subsequent training to the school staff. There are training opportunities available through the cluster groups. Teaching Assistants are trained both in house and by attending relevant courses.

Equality, Disability and Accessibility

Gorseley Bank has a Disability Equality Scheme and Accessibility Plan. This was reviewed in July 2017. The Accessibility Plan is available on the school's website. The Equality Policy was reviewed in September 2017. This is a trust wide Equality Policy, school specific equality duty objectives are published and are on the school website in line with statutory requirements.

All staff at Gorseley Bank recognise the importance of the Equality Act 2010. This legislation places specific duties on schools, settings and providers including the duty not to discriminate, harass or victimise a child or adult linked to a protected characteristic defined in the Equality Act, and to make 'reasonable adjustments' to ensure equal opportunities.

The Equality Act 2010 definition of disability is: "A person has a disability for the purposes of this Act if (s)he has a physical or mental impairment which has a substantial and long-term adverse effect on her/his ability to carry out normal day-to-day activities."

Section 1 (1) Disability Discrimination Act 1995: Our school is committed to making reasonable adjustments to ensure participation of all children, including those with SEND, within the curriculum and with extra-curricular activities.

Queries

Any queries about SEND provision should be raised in line with the Laurus Trust Equality Policy, which is available on the Trust website www.laurustrust.co.uk. This process is first to check the website, then request a telephone appointment with the SEND team. If issues are still unresolved, complaints can be logged in accordance with the trust complaints policy.

If you have any questions about the content of this report then please contact the SENDCO or SEND Governor through the School Office.
