

Year 5 / Spring / Making Mischief

Collaboration

With others, we will explore the importance of teamwork and how we need friends to help us in life. When times are tough, it is important to have support!

Possibilities

We will explore what is possible to be achieved with a good idea and careful planning. Also, how people can 'overcome the odds to achieve something they want.

Respect

We will be learning how respect is earned through a person's actions and behavior, and the best way to go about this to earn the respect of others we encounter.

Technology

As technologists we will be learning the correct way to behave online. We will look at why behavior might change compared to a face to face interaction.

What are the consequences of mischief?

Can the wrong thing sometimes be the right thing?

Why is it sometimes hard to forgive?

How can people or behavior be redeemed?

How do actions make a person?
