

## Year 6 / Spring / Into the Unknown...

### Collaboration

Working in teams to work out new personal targets, coaching and mentoring others and remaining accountable to our peers.

### Possibilities

Learning about both the ambitious and less lofty but focused aims of others and being inspired to explore our personal possibilities.

### Respect

Respecting the fears and aims of others, always remaining encouraging and celebrating their achievements. .

### Technology

Using technology to communicate with the World through building websites, collaboration through cyber projects and taking our use of technology to new heights in general.

Is it possible to survive alone?

What would you do if you found yourself in an unknown land?

What do we need to survive and thrive?

What is the strangest place you can imagine?

Are communities always positive?
